

FST's IMID™ Version 3.6 Successfully Integrated with AMAG Technology's Symmetry™ Security Solution

*Two market leaders successfully collaborating to offer cutting edge in-
motion access control solutions*

RISHON LEZION, Israel (February 14, 2017) – [FST Biometrics](#), the leading visual identification solutions provider, today announced that AMAG Technology has certified version 3.6 of FST's IMID as fully integrated with AMAG's Symmetry access control solution. Symmetry users will now be able to combine the benefits they receive from AMAG's cutting edge security solution with the incomparable combination of accuracy and convenience visual identification solution offered by FST Biometrics.

"FST Biometrics sees a high degree of consistency between our market-leading visual identification solutions and AMAG's security management solutions," said Arie Melamed, chief marketing officer of FST Biometrics. "Integrating our IMID in-motion visual identification technology into Symmetry means AMAG solution customers can now manage their facility access at the speed of life."

FST Biometrics' award-winning, biometrics-based IMID Access In-Motion Identification system provides convenient and frictionless secure access for a variety of venues including leading enterprises, large residential complexes, office buildings, educational institutions, in addition to health and recreation centers.

"The integration between our Symmetry Access Control software and FST's IMID will deliver a leading technology-driven solution our customers will find attractive, accurate and seamless to use," said Dave Ella, Vice President of Products and Partner Programs at AMAG Technology. "We are looking forward to a long, successful partnership."

###

About AMAG Technology

AMAG Technology's Symmetry™ Security Management Solutions can be found in a wide spectrum of markets: government, commercial, education, transportation, healthcare, utilities and banking. Symmetry architecture has been rigorously tested and approved for federal government compliance by Federal Identity, Credential, and Access Management (FICAM), HSPD-12 and FIPS-201 regulations.

Headquartered in Torrance, California, with sales and support located throughout the Americas, EMEA and APAC, AMAG provides customers with industry leading security solutions. AMAG Technology is part of G4S plc, the leading global integrated security company which has operations on six continents and 611,000 employees. As AMAG Technology looks to the future, the next generation of products will bring the core aspects of security to evolve beyond integrated solutions – Symmetry.

About FST Biometrics

FST Biometrics is a leading identity management solutions provider. The company's IMID™ product line offers access control through its proprietary In Motion Identification technology. This provides the ultimate security and convenience for users, who are accurately identified without having to stop or slow down. IMID™ solutions integrate a fusion of biometric and analytic technologies that include face recognition, body behavior analytics and voice verification.
